

# MISSION

We support students as they transition to the U.S. by supporting them **linguistically, academically, and emotionally**. We implement an **asset-based, individualized** approach to instruction. We **advocate** for students and **connect** them to valuable **resources** and **opportunities**.

We **warmly welcome families** by providing crucial **information** in an accessible and culturally responsive manner. We **connect** families to key people and resources in our community and maintain **communication** and support to ensure international families can thrive in Barrow County.

*Bridging Cultures. Creating Community.*
