INDEPENDENT AUDITOR'S REPORT

To the Superintendent and Members of the Barrow County Board of Education Winder, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the **Barrow County Board of Education** as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Barrow County Board of Education's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund information of the Barrow County Board of Education as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Barrow County Board of Education and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Barrow County Board of Education's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Barrow County Board of Education's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Barrow County Board of Education's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of revenues, expenditures, and changes in fund balances - budget and actual General Fund, the schedule of proportionate share of net pension liability - TRS, the schedule of contributions – TRS, the schedule of proportionate share of net pension liability – PSERS, the schedule of proportionate share of net OPEB liability - school OPEB fund, and the schedule of contributions school OPEB fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Barrow County Board of Education's basic financial statements. The schedule of expenditures of special purpose local option sales tax proceeds and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of special purpose local option sales tax proceeds and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2023 on our consideration of the Barrow County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Barrow County Board of Education's internal control over financial report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Barrow County Board of Education's internal control over financial report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Barrow County Board of Education's internal control over financial reporting and compliance.

Mauldin & Genkins, LLC

Atlanta, Georgia December 16, 2023

INTRODUCTION

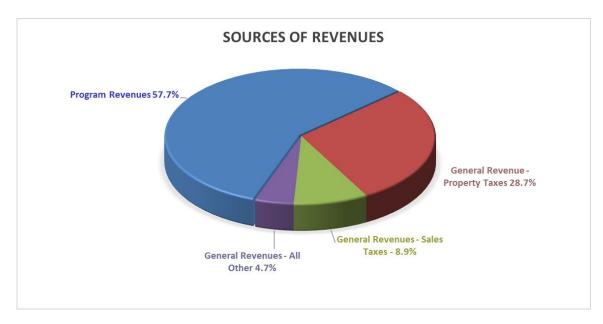

The Barrow County Board of Education's (School District's) financial statements for the fiscal year ended June 30, 2023 includes a series of basic financial statements that report financial information for the School District as a whole, its funds, and its fiduciary responsibilities. The statement of net position and the statement of activities provide financial information about all of the School District's activities and present both a short-term and long-term view of the School District's finances on a global basis. The fund financial statements provide information about all of the School District's funds, such as the School District's General Fund, is important in its own right, but will also give insight into the School District's overall soundness as reported in the statement of net position and the statement of activities.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2023 are as follows:

On the government-wide financial statements:

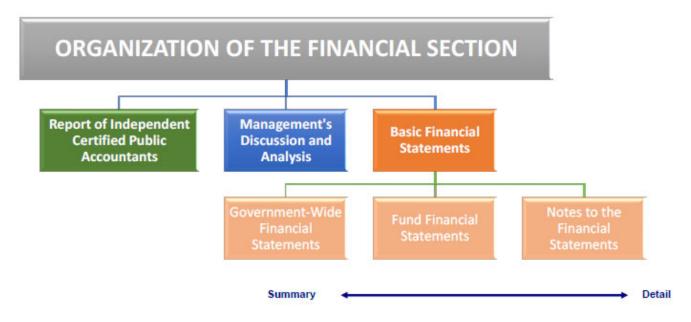

- Net position increased \$18.5 million, which was due to increase state funding, sales tax revenues, along with growth in the property tax digest for Barrow County.
- The School District had \$209.3 million in expenses relating to governmental activities; \$131.6 million of these expenses were offset by program specific charges for services, grants and contributions. General revenues (primarily property and sales taxes) of \$96.2 million were adequate to provide for these programs.
- As stated above, general revenues accounted for \$96.2 million or nearly 42.2% of all revenues totaling over \$227.8 million. Program specific revenues in the form of charges for services, grants, and contributions accounted for the balance of these revenues. (Percentages in table below have been rounded to one decimal place.)

• The current ratio, which measures the School District's ability to transform current assets into cash and pay its short-term liabilities, was 6.54 for the fiscal year ended June 30, 2023. Generally, a ratio greater than 2.0 is considered very financially stable.

On the fund financial statements:

- Among major funds, the General Fund had \$205.3 million in revenues and nearly \$191.7 million in expenditures. The general fund balance of roughly \$85.2 million at June 30, 2023 increased by approximately \$13.7 million from the prior year. This increase in General Fund balance resulted primarily because of increased revenues from property taxes and state funds.
- Capital projects fund ended the year with a fund balance of \$43.4 million, an increase of nearly \$20.8 million from the previous year primarily due to construction of approved projects and using proceeds from the bond funding that was received in fiscal year 2023. The fund has approximately \$55 million in unspent bond proceeds as of June 30, 2023.

OVERVIEW OF THE FINANCIAL STATEMENTS

These financial statements consists of three parts; management's discussion and analysis (this section), the basic financial statements including notes to the financial statements and supplementary information. The basic financial statements include two levels of statements that present different views of the School District. These include the government-wide and fund financial statements.

The government-wide financial statements include the statement of net position and statement of activities. These statements provide information about the activities of the School District presenting both short-term and long-term information about the School District's overall financial status.

The fund financial statements focus on individual parts of the School District, reporting the School District's operation in more detail. The governmental funds statements disclose how basic services are financed in the short-term as well as what remains for future spending. In the case of the Barrow

County School District, the General Fund, capital projects fund, and debt service fund are all considered to be major funds. The School District has no funds reported as nonmajor funds as defined by generally accepted accounting principles.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements. Additionally, other supplementary information (not required) is also presented that further supplements understanding of the financial statements.

Government-Wide Statements

Since Barrow County School District has no operations that have been classified as "business-type activities", the government-wide financial statements are basically a consolidation of all of the School District's operating funds into one column called governmental activities. In reviewing the government-wide financial statements, a reader might ask the question, are we in a better financial position now than we were last year? The statement of net position and the statement of activities provides the basis for answering this question. These financial statements include all School District's assets and deferred outflows of resources and liabilities and deferred inflows of resources and uses the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and any changes in net position. The change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the results of many factors, including those not under the School District's control, such as the property tax base, facility conditions, required educational programs, student-teacher ratios, and other factors.

When analyzing government-wide financial statements, it is important to remember these statements are prepared using an economic resources measurement focus (accrual accounting) and involve the following steps to format the statement of net position:

- Capitalize current outlays for capital assets.
- Depreciate capital assets.
- Report long-term debt, including pension and other post-employment benefit obligations, as a liability.
- Calculate revenue and expense using the economic resources measurement focus and the accrual basis of accounting.
- Allocate net position as follows:
 - Net Investment in capital assets.
 - *Restricted net position* is amounts with constraints placed on the use by external sources such as creditors, grantors, contributors or laws and regulations.
 - Unrestricted for no specific use.

Fund Financial Statements

The School District uses many funds or sub-funds to account for a multitude of financial transactions during the fiscal year. The fund financial statements presented in this report provide detail information about the School District's significant or major funds. As discussed previously, the School District has no nonmajor funds.

The School District has the following fund type:

<u>Governmental Funds</u> – All of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the modified accrual method of accounting which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The differences between government activities (reported in the statement of net position and the statement of activities) and governmental funds are reconciled in the financial statements.

Notes to the Financial Statements

The notes provide disclosures and additional information that are essential to a full understanding of the financial information presented in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also provides certain required supplementary information and schedules.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Net position, which is the difference between total assets and deferred outflows of resources, and total liabilities and deferred inflows of resources, is one indicator of the financial condition of the School District. When revenues exceed expenses, the result is an increase in net position. When expenses exceed revenues, the result is a decrease in net position. The relationship between revenues and expenses can be thought of as the School District's operating results. The School District's net position, as measured in the statement of net position is one way to measure the School District's financial health, or financial position. Over time, increases or decreases in the School District's net position, as measured in the statement of activities, are one indicator of whether its financial health is improving or deteriorating. However, the School District's goal and mission is to provide success for each child's education, not to generate profits as private corporations do. For this reason, many other nonfinancial factors should be considered in assessing the overall health of the School District.

In the case of the Barrow County School District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by nearly \$58.6 million at June 30, 2023. To better understand the School District's actual financial position and ability to deliver services in future periods, it is necessary to review the various components of the net position category. For example, of the \$58.6 million of net position, approximately \$126.3 million was restricted for continuation of various state and federal programs, debt service and ongoing capital projects. Accordingly, these funds were not available to meet the School District's ongoing obligations to citizens and creditors.

In addition, the School District had \$178.2 million (net of related debt) invested in capital assets (e.g., land, buildings, and equipment). The School District uses these capital assets to provide educational services to students within geographic boundaries served by the School District. Because of the very nature and ongoing use of the assets being reported in this component of net position, it must be recognized that this portion of the net position is not available for future spending.

Because of the restrictions on net position as discussed above and because of implementation of GASB No. 68, *Accounting and Financial Reporting for Pensions*, implemented in fiscal year 2015, and GASB No. 75, *Accounting and Financial Reporting for Post-employment Benefits Other than Pensions*, implemented in fiscal year 2018, the School District had a deficit of \$246.0 million in unrestricted net position at June 30, 2023. However, the School District's overall net position can also be viewed in the following manner:

Net position June 30, 2023	\$ 58,582,624
Pension and post-employment benefits related net position	 213,513,814
Net position (excluding pension and post-employment benefits), June 30, 2023	\$ 272,096,438

The above analysis reflects, removal of pension and post-employment benefits obligations (which are managed in state run, stable fund), the School District's net position is a positive over \$272.1 million and management believes the School District's financial position is sound.

Table 1 on the following page provides a summary of the School District's net position for this fiscal year as compared to the prior fiscal year.

Table 1 Net Position

Total expenses	209,298,980	166,809,948		
Increase in net position	\$ 18,540,800	\$ 58,194,952		

The statement of activities shows the cost of program services and the charges for services and grants offsetting these services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. Net cost of services can be defined as the total cost less fees generated by the activities and intergovernmental revenue provided for specific programs. The net cost reflects the financial burden on the School District's taxpayers by each activity as compared to the prior fiscal year.

Instruction comprises 60.5% of governmental program expenses. Support services expenses make up 31.5% of the expenses. Expenses increased approximately \$42.5 million from the prior year, while the net costs of providing services increased about \$44.1 million.

Table 3Governmental Activities

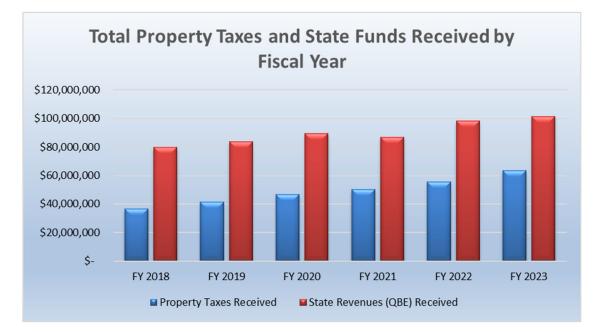

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

Information about the School District's governmental funds is presented starting on page 19 of this report. Governmental funds are accounted for using the modified accrual basis of accounting. The governmental funds had total revenues of \$228.3 million and total expenditures of over \$247.5 million in fiscal year 2023. Total governmental fund balances of \$140.4 million at June 30, 2023, increased nearly \$36.8 million from the prior year. This increase in fund balance resulted from the combination of net increases of the General Fund (\$13.7 million), an increase in the capital projects fund (\$20.8 million) and an increase in the debt service fund (\$2.4 million).

The General Fund balance improved due to a 17.8% increase in property taxes received as compared to prior year, a 5.9% decrease in sales tax received, a 4.8% increase (excluding GSFIC reimbursements) in state revenues, a 40.9% decrease in federal funds and increased expenditures of \$34.6 million. The increases were attributable to the State raising the teacher salary schedule by \$2,000 across the Board, in

addition the Barrow County School System also increased our local teacher supplement by \$2,000. In addition, BCSS increased our noncertified staff salaries by 4%. The school system spent \$46 million in capital projects fund primarily on the new elementary school opening in fiscal year 2024, BASA II opening in fiscal year 2025, multiple renovations to existing buildings and transportation and technology needs. The School District issued \$48.8 million in series 2023 bonds during fiscal year 2023.

Shown here is an illustration of property tax and education state funds (QBE) received in the past six years:

General Fund Budget Highlights

The School District's budget is prepared according to Georgia Law. The most significant budgeted fund is the General Fund. During the course of fiscal year 2023, the School District amended its General Fund budget as needed.

The School District budget is adopted at the aggregate level and maintained at the program, function, object, and site levels to facilitate budgetary control. The budgeting systems are designed to control the total budget but provide flexibility to meet the ongoing programmatic needs. The budgeting systems are also designed to control total site budgets but provide flexibility for site management as well.

For the General Fund, the final actual revenues of \$205.3 million exceeded the final budgeted revenues of \$205.0 million by \$304,000. The variance was primarily due to property taxes and TAVT coming in higher than projected and a decrease in anticipated federal funds received, mainly Elementary and Secondary School Emergency Relief (ESSER) funds.

The General Fund's final budgeted expenditures of \$203.0 million exceeded actual expenditures of almost \$191.7 million by roughly \$11.4 million due to salaries and health insurance coming in lower than projected, lower maintenance cost, conservative management of funds, and a desire to keep fund balance at a level to prepare for upcoming economic downturns.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At fiscal year ended June 30, 2023, the School District had \$287.0 million invested in capital assets, net of accumulated depreciation, all in governmental activities. These assets are made up of a broad range of items including buildings; land; land improvements; and food service, transportation and maintenance equipment. Table 4 below reflects a summary of these balances, net of accumulated depreciation, as compared to the prior fiscal year.

Table 4Capital Assets at June 30 (Net of Depreciation)Governmental Activities

	Fis	Fiscal Year 2023		cal Year 2022
Land	\$	7,246,668	\$	7,083,105
Construction in progress		56,310,374		42,015,263
Land improvements		2,138,452		2,294,594
Buildings and improvements		214,767,773		191,807,600
Equipment		6,573,336		4,713,983
Total	\$	287,036,603	\$	247,914,545

The overall capital assets increased in fiscal year 2023 by net \$39.1 million. Depreciation expenses reduced the total capital assets by \$6.3 million. The School District began work on BASA II, an extension of Barrow Arts and Science Academy, continued construction on Austin Road Elementary that opened in fiscal year 2024 and other renovation projects, purchased buses and facility improvements all adding to the total capital assets balance. Additional information about the School District's capital assets can be found in the Notes to the Basic Financial Statements.

Long-Term Debt

At June 30, 2023, the School District had \$455.4 million in total debt outstanding which consisted of \$140.8 million in bond debt, \$160.3 thousand in financed purchases, \$280.8 thousand in capital leases, \$578.5 thousand in compensated absences debt, and \$13.9 million in unamortized bond premiums. Net pension and other post-employment benefits liabilities totaled \$300 million The School system sold \$48 million in bonds to fund additional schools, facility improvements and purchase additional buses and technology. Principal payments throughout the year decreased existing debt. Table 5 on the following page summarizes the School District's debt as compared to the prior fiscal year.

Table 5Debt at June 30Governmental Activities

	Fis	cal Year 2023	Fiscal Year 2022			
Bonds payable	\$	140,835,000	\$	98,400,000		
Financed purchases		441,043		698,330		
Compensated absences		578,491		520,104		
Net pension liability		217,704,503		55,574,178		
Net OPEB liability		82,404,377		88,630,934		
Unamortized bond premiums		13,471,240		7,371,209		
Total	\$	455,434,654	\$	251,194,755		

Additional information about the School District's debt can be found in the Notes to the Basic Financial Statements.

FACTORS BEARING ON THE SCHOOL DISTRICT'S FUTURE

Currently known circumstances that are expected to have a significant effect on financial position or results of operations in future years are as follows:

- The School District has continued to grow with an average increase of over 328 students per year over the last five years. In school year 2024 we had an increase of 422 students, and we believe we will have further growth this year. The School District will continue renovation on two schools in the summer of 2024 and open a BASA II. In the next five years, tentative plans are to open either a new middle school or new elementary school depending on what the growth shows as a need in fall of 2026. The School District plans to fund the additional capital outlays with the one percent local sales tax revenue, general obligation bonds, and state capital outlay grants.
- The school system has been granted approximately \$30.9 million in ESSER federal funds to address learning loss and aid in the continuing of core services. As of June 30, 2023, we have spent \$21.5 leaving \$9.4 million to be spent in fiscal year 2024 and the first three months of fiscal year 2025. The district will have to decide if these services need to continue and if they do, we will need to use the General Fund funds to cover these expenditures.

- The School District's operating millage for fiscal year 2023 was 17.881, which produced approximately \$3.2 million in tax revenue per mill. The gross tax digest has grown at 82% over the last five years, which has helped to increase our fund balances to a comfortable level. The General Fund had an unassigned fund balance of \$71.5 million on June 30, 2023, which is an increase of about \$13.6 million from the prior year. This increase in General Fund balance was primarily attributable to these increased revenues and a decrease in budgeted spending. The School District will attempt to maintain adequate balances to shield the School District from the adverse effect of economic fluctuations, future healthcare expenditures and the effect of the new aged based tax exemption that will go into effect in fiscal year 2025.
- In fiscal year 2023, the governor increased the state teacher salary scale by \$2,000 across the board. The District extended their salary scales from 22 years of service to 30 years for retention purposes. The district also gave a 3% increase to our classified staff. The cost of the employer portion of TRS pension remained at 19.81% of employee salary however it is increasing in fiscal year 2025 to 20.78% of salary. Health insurance premiums for certified will increase 40% and noncertified insurance will increase 26% and continue to increase for the next few years. The School District plans to add numerous teaching positions due to growth and add additional support positions for our teachers.
- Property taxes should increase due to reassessments, new residential housing projects and a rise in commercial construction. Sales taxes should increase due to growth and additional businesses opening, but the district remains conservative in the financial outlook due to a recession threatening our economy.
- The School District leadership is constantly prioritizing where to invest funds to best align to the School District's strategic plan. The School District has converted to the Fund 150 allotment system, maximizing financial flexibility and ensuring resources are provided to children. The School District has earned an Aa2 bond rating, which is a higher than normal rating in the state of Georgia. The School District is committed to a conservative budget approach and presents annual budgets to the public that are balanced.

In light of these challenges and opportunities, the School District will continue to be a good steward providing a quality educational opportunity to all Barrow County students.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact Ms. Jennifer Houston, CPA, Assistant Superintendent for Business Services, Barrow County Board of Education, 179 West Athens Street, Winder, Georgia, 30680. You may also email your questions to Ms. Houston at Jennifer.Houston@barrow.k12.ga.us.

\$

18,540,800

NOTE 1 – DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

Reporting Entity

The Barrow County Board of Education (the "School District") was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The School District is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The School District's basic financial statements are collectively comprised of the government-wide financial statements, fund financial statements and notes to the basic financial statements of the Barrow County Board of Education.

Government-Wide Statements:

The statement of net position and the statement of activities display information about the financial activities of the overall School District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.
- Program revenues include: (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

In the statement of net position, equity is reported as net position and consists of net investment in capital assets, amounts restricted by outside parties for specific purposes and unrestricted amounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements:

The fund financial statements provide information about the School District's funds. Eliminations have been made to minimize the double counting of internal activities. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The School District reports the following major governmental funds:

- *General Fund* is the School District's primary operating fund. It accounts for all financial resources of the School District, except those resources required to be accounted for in another fund.
- *District-Wide Capital Projects Fund* accounts for financial resources including Special Purpose Local Option Sales Tax (SPLOST), bond proceeds and grants from the Georgia State Financing and Investment Commission that are restricted, committed or assigned for capital outlay expenditures, including the acquisition or construction of capital facilities and other capital assets.
- *Debt Service Fund* accounts for accumulated resources legally restricted for the payment of general long-term debt principal, interest and paying agent's fees.

Basis of Accounting/Measurement Focus

The basis of accounting determines when transactions are reported on the financial statements. The Districtwide governmental activities financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers most revenues to be available if they are collected within 60 days of the end of the current fiscal period.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property taxes, sales taxes, intergovernmental revenue, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and financed purchases are reported as other financing sources.

Revenue from grants and donations are recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

The State of Georgia reimburses the School District for teachers' salaries and operating costs through the Quality Basic Education (QBE) Formula Earnings program. State of Georgia law defines the formula driven grant that determines the cost of an academic school year and the State of Georgia's share in this cost. Generally teachers are contracted for the school year (July 1 – June 30) and paid over a 12 month contract period, generally September 1 through August 31. In accordance with the requirements of the enabling legislation of the QBE program, the State of Georgia reimburses the School District over the same 12-month period in which teachers are paid, funding the academic school year expenditures. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued as the State of Georgia has only postponed the final payment of their share of the cost until the subsequent appropriation that includes this final amount, which represents the State of Georgia's intent to fund this final payment. Based on guidance in Government Accounting Standards Board (GASB) Statement No. 33, paragraph 74, the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, and the School District recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net position available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

Cash and Cash Equivalents

COMPOSITION OF DEPOSITS

Cash and cash equivalents consist of cash on hand, demand deposits, investments in the State of Georgia local government investment pool (Georgia Fund 1 and the MSILF Government Portfolio) and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Georgia Laws OCGA 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks or insured Federal savings and loan associations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments

COMPOSITION OF INVESTMENTS

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

- (1) Obligations issued by the State of Georgia or by other states,
- (2) Obligations issued by the United States government,
- (3) Obligations fully insured or guaranteed by the United States government or a United States government agency,
- (4) Obligations of any corporation of the United States government,
- (5) Prime banker's acceptances,
- (6) The Local Government Investment Pool administered by the State Treasurer of the State of Georgia,
- (7) Repurchase agreements, and
- (8) Obligations of other political subdivisions of the State of Georgia.

Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on federal, state or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements are reported net of an allowance for uncollectible receivables when necessary.

Due to other funds and due from other funds consist of activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

The Barrow County Tax Commissioner levied the property tax for the 2022 tax digest year (calendar year) on June 22, 2022 (levy date). Taxes were due on November 15, 2022 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2022 tax digest are reported as revenue in the governmental funds for fiscal year 2023. The Barrow County Tax Commissioner bills and collects the property taxes for the School District, withholds 2.5% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2023, for maintenance and operations amounted to \$64,669,132. Allowances for uncollectible property taxes at June 30, 2023 for the School District's General Fund are \$91,177.

The Georgia Constitution, Article VIII, Section VI, Paragraph I requires the board of education of each school system to annually certify to its fiscal authority or authorities a school tax not greater than 20 mills per dollar for the support and maintenance of education. The Barrow County Board of Education is in compliance with this law. Tax millage rates levied for the 2022 tax year (calendar year) for the Barrow County Board of Education dollars of assessed value):

School Maintenance and Operations

17.881 mills

Sales Taxes

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to \$20,260,495 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

Inventories

CONSUMABLE SUPPLIES

On the basic financial statements, consumable supplies are reported at cost (first-in, first-out). The School District uses the consumption method to account for the consumable supplies inventory whereby an asset is recorded when supplies are purchased and expenses/expenditures are recorded at the time the supplies are consumed.

FOOD INVENTORIES

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their federally assigned value and purchased foods inventories are reported at cost (first-in, first-out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Prepaid Items

Payments made to vendors for services that will benefit periods subsequent to June 30, 2023, are recorded as prepaid items.

Capital Assets

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated acquisition value. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art. Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Car 	pitalization Policy	Estimated Useful Life		
Land		All	N/A		
Land Improvements	\$	5,000	20-80 years		
Buildings and Improvements	\$	5,000	10-80 years		
Equipment	\$	5,000	3-20 years		
Intangible Assets	\$	100,000	10-20 years		

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The School District reports five (5) types of deferred outflows of resources related to the reporting of the net pension liability and net OPEB liability. The School District reports: (1) a deferred outflow of resources for the School District's actual contributions to the pension and OPEB plan during the fiscal year ended June 30, 2023 which are subsequent to the measurement date of the net pension liability and net OPEB liability and net OPEB liability and will be recognized in fiscal year 2024; (2) a deferred outflow of resources for the changes in actuarial assumptions on the pension plan and OPEB plan; (4) a deferred outflow of resources for the changes in actuarial assumptions on the pension plan and OPEB plan; (4) a deferred outflow of resources for the changes in actuarial assumptions on the changes in proportional differences in contributions for the pension and OPEB plan and OPEB plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School District has three types of deferred inflows under a modified accrual basis of accounting that qualify for reporting in this category. Accordingly, these items, unavailable revenues, are reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The School District also has four items that qualify for reporting in this category which occurs only in the governmental activities. The School District reports: (1) a deferred inflow of resources for experience gains or losses related to the pension and OPEB Plan, (2) a deferred inflow of resources for assumption changes related to the OPEB plan, (3) a deferred inflow of resources for the difference between the School District's actual contributions towards the pension and OPEB plans and the School District's proportionate share of contributions, which will be amortized over the remaining service period; (4) deferred charge on refunding which results from the difference in the carrying value of refunded debt and its reacquisition price.

Compensated Absences

Members of the Teachers Retirement System of Georgia (TRS) may apply unused sick leave toward early retirement. The liability for early retirement will be borne by TRS rather than by the individual School Districts. Otherwise sick leave does not vest with the employee, and no liability is reported in the School District's financial statements.

Compensated absences payable consists of vacation leave employees earned based on services already rendered.

Vacation leave of 12 days is awarded on a fiscal year basis to all full-time personnel employed on a 12-month basis until they have reached five fiscal years of services. Between five to ten fiscal years of service, employees earn 15 days and after ten fiscal years of service they earn 18 days per fiscal year. No other employees are eligible to earn vacation leave. Vacation leave not utilized during the fiscal year may be carried over to the next fiscal year, providing such vacation leave does not exceed 30 days. Upon terminating employment, the School District pays all unused and unforfeited vacation benefits to employees. Accordingly, vacation benefits are accrued as a liability in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal year-end.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

General Obligation Bonds

The School District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund existing general obligation bonds. Bond issuance costs are recognized in the financial statements during the fiscal year bonds are issued. General obligation bonds are direct obligations and pledge the full faith and credit of the government.

In the fund financial statements, the face amount of debt issued and any related premium, is reported as other financing sources. Issuance costs, whether or not withheld from actual proceeds, are reported as debt service expenditures.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows and inflows of resources, and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers Retirement System of Georgia (TRS) and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Georgia School Employees Post-Employment Benefit Fund (School OPEB Fund) and additions to/deductions from the School OPEB Fund's fiduciary net position have been determined on the same basis as they are reported by the School OPEB Fund. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Equity/Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets, liabilities and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable Fund balances are reported as nonspendable when amounts cannot be spent because they are either: (a) not in spendable form (i.e., items that are not expected to be converted to cash), or (b) legally or contractually required to be maintained intact.
- *Restricted* Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- *Committed* Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education through the adoption of a resolution. Only the Board of Education may modify or rescind the commitment, also through a resolution.
- *Assigned* Fund balances are reported as assigned when amounts are constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the Board of Education has authorized the Superintendent or his or her designee to assign fund balances.
- **Unassigned** Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The School District reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the School District's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the School District's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

It is the goal of the School District to achieve and maintain a committed, assigned and unassigned fund balance in the General Fund at fiscal year-end of not less than 5% of budgeted expenditures and not to exceed 15% of the total budget of the subsequent fiscal year, in compliance with Official Code of Georgia annotated 20-2-167(a)5. If unassigned fund balance at fiscal year-end falls below the goal, the School District shall develop a restoration plan to achieve and maintain the minimum fund balance.

Net Position – Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the School District has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The budget is a complete financial plan for the School District's fiscal year and is based upon careful estimates of expenditures together with probable funding sources. The budget is legally adopted each year for the general, debt service, and capital projects funds. There is no statutory prohibition regarding over expenditure of the budget at any level. The budget for all governmental funds, except the various school activity (principal) accounts, is prepared and adopted by fund and function. The legal level of budgetary control was established by the Board at the aggregate fund level. The budget for the General Fund was prepared in accordance with accounting principles generall accepted in the United States of America. The capital projects fund adopts project-length budgets.

The budgetary process begins with the School District's administration presenting an initial budget for the Board's review. The administration makes revisions as necessary based on the Board's guidelines, and a tentative budget is approved. After approval of this tentative budget by the Board, such budget is advertised at least once in a newspaper of general circulation in the locality, as well as the School District's website. At the next regularly scheduled meeting of the Board after advertisement, the Board receives comments on the tentative budget, makes revisions as necessary and adopts a final budget. The approved budget is then submitted, in accordance with provisions of O.C.G.A. Section 20-2-167(c), to the Georgia Department of Education. The Board may increase or decrease the budget at any time during the year. All unexpected budget authority lapses at fiscal year-end.

For the year ended June 30, 2023, expenditures exceeded the budget in the General Fund departments as follows:

General Fund:	
Support services:	
Student transportation services	\$ 380,222
Debt service:	
Principal	1,720

The excess of expenditures over budget that are noted above were primarily funded by savings in other functional expenditures.

NOTE 4 – DEPOSITS AND INVESTMENTS

CATEGORIZATION OF INVESTMENTS

The investment in the local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair market value as of year-end and the School District's investment in the Georgia Fund 1 is reported at fair value. The School District considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

NOTE 4 – DEPOSITS AND INVESTMENTS (CONTINUED)

The investment in the Morgan Stanley Institutional Liquidity Funds (MSILF) Government Portfolio is a stable asset value investment pool. The fund is rated AAAm by Standard and Poor's. The asset value is calculated weekly to ensure stability. The fund distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The fund also adjusts the value of its investments to fair market value as of year-end and the School District's investment in the MSILF is reported at fair value. The School District considers amounts held in MSILF as cash equivalents for financial statement presentation.

Investment	Maturity	Fair Value			
Georgia Fund 1	28 days	\$	11,822,510		
MSILF	19 days		55,290,672		
Certificate of Deposit	344 days		47,952		
Certificate of Deposit	71 days		9,924		

INTEREST RATE RISK

The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

FAIR VALUE MEASUREMENTS

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Georgia Fund 1 and MSILF are investment pools which do not meet the criteria of GASB Statement No. 79 and are thus valued at fair value in accordance with GASB Statement No. 31. As a result, the School District does not disclose investment in the Georgia Fund 1 and MSILF within the fair value hierarchy.

CUSTODIAL CREDIT RISK

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Board will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) amounts that exceed standard depository insurance limits are required to be collateralized either: (1) individually by the financial institutions through pledged obligations of the U.S. Government, obligations backed by the full faith and credit of the U.S. Government, obligations of the State of Georgia or other states, or obligations of counties, municipalities, or public authorities of the State of Georgia, or (2) participation in the State of Georgia Secure Deposit Program. As of June 30, 2023, the Board's cash accounts were insured and/or collateralized as defined by GASB Standards.

NOTE 5 – NON-MONETARY TRANSACTIONS

The School District receives food commodities from the United States Department of Agriculture (USDA) for school breakfast and lunch programs. For the year ended June 30, 2023, the commodities usage is recorded at their federally assigned value of \$723,078.

NOTE 6 – RECEIVABLES

Receivables at June 30, 2023, for the School District's individual funds, including the applicable allowances for uncollectible accounts are as follows:

	General		District-Wide Capital Projects			bt Service Fund	Total		
Receivables:									
Taxes	\$	2,748,647	\$	-	\$	-	\$	2,748,647	
Intergovernmental		15,893,492		1,821,254		-		17,714,746	
Other		317,948		22,970		42,892		383,810	
Gross receivables		18,960,087		1,844,224		42,892		20,847,203	
Less allowance for uncollectibles		(91,177)		-		-		(91,177)	
Net total receivables	\$	18,868,910	\$	1,844,224	\$	42,892	\$	20,756,026	

NOTE 7 – CAPITAL ASSETS

The following is a summary of changes in the capital assets during the fiscal year:

	Balances July 1, 2022		Increases Decreases		Transfers		Balances June 30, 2023			
Governmental activities:										
Capital assets, not being depreciated: Land	\$	7,083,106	\$	163,562	\$	-	\$	-	\$	7,246,668
Construction in progress		42,015,263		42,221,196		-		(27,926,085)		56,310,374
Total		49,098,369		42,384,758		-		(27,926,085)		63,557,042
Capital assets, being depreciated:

Equipment		26,057,873		3,104,074		(751,912)		-		28,410,035
Land improvements		5,644,485		-		-		-		5,644,485
Total		289,904,087		3,104,074		(751,912)		27,926,085		320,182,334
Less accumulated depreciation for:										
Building and improvements		(66,394,129)		(4,965,912)		-		-		(71,360,041)
Equipment		(21,343,889)		(1,166,218)		673,408		-		(21,836,699)
Land improvements		(3,349,891)		(156,142)		-		-		(3,506,033)
Total		(91,087,909)		(6,288,272)		673,408		-		(96,702,773)
Total capital assets, being depreciated, net		198,816,178		(3,184,198)		(78,504)		27,926,085		223,479,561
Governmental activities capital assets, net	\$	247,914,547	\$	39,200,560	\$	(78,504)	\$	_	\$	287,036,603

NOTE 7 – CAPITAL ASSETS (CONTINUED)

Depreciation expense was charged to functions as follows:

Instruction	\$ 4,462,153
Support Services:	
Pupil Services	47,052
Educational Media Services	120,217
General Administration	28,059
Business Administration	13,201
Maintenance and Operation of Plant	699,942
Student Transportation Service	675,554
Central Support Services	1,738
Operation of Non Instructional Services:	
School Nutrition Program	163,562
Enterprise Operations	 76,794
	\$ 6,288,272

NOTE 8 - INTERFUND ASSETS, LIABILITIES AND TRANSFERS

INTERFUND ASSETS AND LIABILITIES

Due to and due from other funds are recorded for interfund receivables and payables which arise from interfund transactions. Interfund balances for the year ended June 30, 2023, consisted of the following:

Receivable Fund	Payable Fund	Amount
General Fund	District-Wide Capital Projects Fund	\$ 10,785,132

The District-Wide Capital Projects fund owes the General Fund money for expenses paid out of the General Fund that will be reimbursed by the District-Wide Capital Projects Fund.

INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2023, consisted of the following:

Transfer From	Transfers To	 Amount	
District-Wide Capital Projects	Debt Service	\$ 11,474,793	

Transfers are used to move SPLOST proceeds from the District-Wide Capital Projects Fund to the Debt Service Fund to fund debt service as allowed in the referendum.

NOTE 9 – RISK MANAGEMENT

INSURANCE

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; and natural disasters.

Georgia School Boards Association Risk Management Fund

The School District participates in the Georgia School Boards Association Risk and Insurance Management System, a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss on account of general liability, motor vehicle liability, errors and omissions liability, cyber risk and property damage, including safety engineering and other loss prevention and control techniques, and to administer the Fund including the processing and defense of claims brought against members of the Fund. The School District pays an annual contribution to the Fund for coverage. Reinsurance is provided to the Fund through agreements by the Fund with insurance companies according to their specialty for property (including coverage for flood and earthquake), machinery breakdown, general liability, errors and omissions, crime, cyber risk and automobile risks. Reinsurance limits and retentions vary by line of coverage.

WORKERS' COMPENSATION

Georgia Education Workers' Compensation Trust

The School District participates in the Georgia Education Workers' Compensation Trust (the Trust), a public entity risk pool organized on December 1, 1991, to develop, implement and administer a program of workers' compensation self-insurance for its member organizations. The School District pays an annual premium to the Trust for its general workers' compensation insurance coverage. Specific excess of loss insurance coverage is provided through an agreement by the Trust with the Safety National Casualty Company to provide coverage for potential losses sustained by the Trust in excess of \$1 million loss per occurrence, up to the statutory limit. Employers' Liability insurance coverage is also provided with limits of \$2 million. The Trust covers the first \$1 million of each Employers Liability claim with Safety National Casualty Company also provides \$2 million in aggregate coverage to the Trust, attaching at 107% of the loss fund and based on the Fund's annual normal premium.

NOTE 9 – RISK MANAGEMENT (CONTINUED)

UNEMPLOYMENT COMPENSATION

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the general fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

		Claims and			
	Beginning of	Changes in		I	End of Year
	Year Liability	 Estimates	 Claims Paid		Liability
2022	\$ -	\$ -	\$ -	\$	-
2023	-	210	(210)		-

The School District has purchased surety bonds to provide additional insurance coverage as follows:

Superintendent	\$	100,000
----------------	----	---------

NOTE 10 – LONG-TERM DEBT

The changes in long-term obligations during the fiscal year ended June 30, 2023, were as follows:

	 Beginning Balance			dditions Reductions		Ending Balance		Due Within One Year
Governmental activities:								
General obligation bonds	\$ 98,400,000	\$	48,825,000	\$	(6,390,000) \$	140,835,000	\$	6,520,000
Unamortized bond premium	7,371,209		7,190,879		(1,090,848)	13,471,240		-
Total bonds payable	 105,771,209		56,015,879		(7,480,848)	154,306,240		6,520,000
Financed purchases	698,330		-		(257,287)	441,043		203,968
Net pension liability	55,560,542		185,450,639		(23,306,678)	217,704,503		-
Net OPEB liability	88,630,934		13,100,498		(19,327,055)	82,404,377		-
Compensated absences	 520,104		623,813		(565,426)	578,491		537,997
Governmental activity								
Long-term liabilities	\$ 251,181,119	\$	255,190,829	\$	(50,937,294) \$	455,434,654	\$	7,261,965

The net pension liability and net OPEB liability typically have been paid from the General Fund.

NOTE 10 – LONG-TERM DEBT (CONTINUED)

GENERAL OBLIGATION BONDS

The School District's bonded debt consists of general obligation bonds that are generally noncallable with interest payable semiannually. Bond proceeds primarily pay for acquiring or constructing capital facilities. Bonds have also been issued to advance-refund previously issued bonds. The School District repays general obligation bonds from voter-approved sales taxes. General obligation bonds are direct obligations and pledge the full faith and credit of the School District.

The School District's outstanding bonds from general obligation related to governmental activities of \$140,835,000 for general obligation debt bonds contained a provision that in an event of nonpayment, the paying agent will notify the State of Georgia Department of Education to withhold state appropriations.

Maturity Amount Amount Description Interest Rates Issue Date Date Issued Outstanding \$ 9,475,000 General Government - Series 2012A 2.00% - 3.00% 11/15/2012 2/1/2027 \$ 6,690,000 General Government - Refunding - Series 2016 3.00% - 4.00% 3/29/2016 2/1/2032 17,360,000 16,350,000 General Government - Series 2017 3.00% - 5.00% 8/15/2017 2/1/2032 10,825,000 10,825,000 3.00% - 5.00% 2/1/2037 40,000,000 General Government - Series 2020A 4/22/2020 40,000,000 General Government - Refunding - Series 2020B 1.16% 8/11/2020 2/1/2027 4,375,000 2,590,000 General Government - Refunding - Series 2020C 1.82% 11/5/2020 2/1/2027 22,920,000 15,555,000 General Government - Series 2023 5.00% 2/1/2042 48,825,000 6/22/2023 48,825,000 \$140,835,000

NOTE 10 – LONG-TERM DEBT (CONTINUED)

FINANCED PURCHASES

An energy efficiency financed purchase agreement dated October 6, 2015 was executed by and between the School District and TCF Equipment Finance. The agreement authorized the borrowing of \$944,319 for the purchase of energy efficiency equipment, machinery, supplies, building modifications and other energy saving items. Payments of the financed purchase shall be made from the School District's capital projects fund.

Additionally, the School District has acquired Georgia Public Safety units for use on school buses and other school vehicles under the provisions of various long-term agreements classified as financed purchases for accounting purposes because they provide for a transfer of ownership by the end of the agreement term.

The School District's outstanding financed purchases related to governmental activities \$441,043 contain a provision that in an event of default, outstanding amounts become immediately due if the School District is unable to make payment. Additionally, the financed purchases contain a provision that should the School District fail to budget, appropriate, or otherwise make available funds to pay rental payments the agreement shall be deemed terminated at the end on the renewal term, and the School District shall cease to use the equipment and peaceably remove and deliver the equipment to the lessor at the School District's expense to the location(s) specified by the lessor.

Purpose	Interest Rates	Issue Date	Maturity Date	Amount Issued	-	Amount utstanding

General Government - Financed Purchase	0.00%	5/4/2021	12/31/2026	130,020		82,740
					\$	441,043

At June 30, 2023, payments due by fiscal year, which includes principal and interest, for these items are as follows:

Fiscal Year Ending June 30	 Principal	 Interest
2024	\$ 203,968	\$ 6,689
2025	129,407	3,710
2026	95,848	777
2027	 11,820	 -
	\$ 441,043	\$ 11,176

NOTE 11 – ON-BEHALF PAYMENTS

The School District has recognized revenues and costs in the amount of \$335,700 for retirement contributions paid on the School District's behalf by the following State Agencies.

Georgia Department of Education Paid to the Teachers Retirement System for Teachers Retirement (TRS) in the amount of \$60,580

State Treasurer of the State of Georgia Paid to the Public School Employees Retirement System for Public School Employees Retirement (PSERS) Employer's Cost in the amount of \$250,973

NOTE 12 – CONTINGENCIES

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

Amounts received or receivable principally from the federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

NOTE 13 – SIGNIFICANT COMMITMENTS

The School District has entered into various construction contracts. At year end, the uncompleted and unpaid portion of these contracts totaled \$25,666,200.

NOTE 14 – RETIREMENT PLANS

GENERAL INFORMATION ABOUT THE TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan description: All teachers of the School District as defined in §47-3-60 of the *Official Code of Georgia Annotated* (O.C.G.A.) and certain other support personnel as defined by §47-3-63 are provided a pension through the Teachers Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

NOTE 14 – RETIREMENT PLANS (CONTINUED)

GENERAL INFORMATION ABOUT THE TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Benefits provided: TRS provides service retirement, disability retirement, and death benefits. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after ten years of service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service and compensation up to the time of disability. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired on the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

Contributions: Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employer by the State of Georgia. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00 % of their annual pay during fiscal year 2023. The School District's contractually required contribution rate for the year ended June 30, 2023 was 19.98% of annual School District payroll, excluding payroll attributable to those personnel funded on behalf of the School District by the State. School District contributions to TRS were \$18,665,506 for the year ended June 30, 2023.

At June 30, 2023, the School District reported a liability for its proportionate share of the net pension liability that reflected a reduction for support provided to the School District by the State of Georgia for certain public school support personnel. The amount recognized by the School District as its proportionate share of the net pension liability, the related State of Georgia support, and the total portion of the net pension liability that was associated with the School District were as follows:

District's proportionate share of the net pension liability	\$ 217,704,503
State of Georgia's proportionate share of the net pension	
liability associated with the District	 699,445
Total	\$ 218,403,948

The net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2021. An expected total pension liability as of June 30, 2022 was determined using standard roll-forward techniques. The School District's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2022. At June 30, 2022, the School District's proportion was 0.670439%, which was an increase of 0.042234% from its proportion measured as of June 30, 2021.

NOTE 14 – RETIREMENT PLANS (CONTINUED)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (CONTINUED)

For the year ended June 30, 2023, the School District recognized pension expense of \$34,403,553 and expense of \$97,636 for support provided by the State of Georgia for certain support personnel. At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between expected and actual experience	\$	9,036,968	\$	1,133,203	
Net difference between projected and actual earnings on pension plan investments		42,772,741		-	
Changes in proportion and differences between District contributions and proportionate share of contributions		9,159,238		44,756	
Actuarial assumption changes		32,771,474		-	
District contributions subsequent to the measurement date		18,665,506		_	
Total	\$	112,405,927	\$	1,177,959	

School District contributions subsequent to the measurement date of \$18,665,506 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2024	\$ 25,575,733
2025	19,921,119
2026	14,924,910
2027	 32,140,700
Total	\$ 92,562,462

NOTE 14 – RETIREMENT PLANS (CONTINUED)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (CONTINUED)

Actuarial assumptions: The total pension liability as of June 30, 2022 was determined by an actuarial valuation as of June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00 - 8.75%, average, including inflation
Investment rate of return	6.90%, net of pension plan investment expense, including inflation
Postretirement benefit increases	1.50% semi-annually

Post-retirement mortality rates for service retirements and beneficiaries were based on the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. Post-retirement mortality rates for disability retirements were based on the Pub-2010 Teachers Mortality Table for Disabled Retirees (ages set forward one year and adjusted 106%) with the MP-2019 Projection scale applied generationally. The rates of improvement were reduced by 20% for all years prior to the ultimate rate. The Pub-2010 Teachers Headcount Weighted Below Median Employee mortality table with ages set forward one year and adjusted 106% was used for death prior to retirement. Future improvement in mortality rates was assumed using the MP-2019 projection scale generationally. These rates of improvement were reduced by 20% for all years prior to the ultimate rate.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018, with the exception of the long-term assumed rate of return on assets (discount rate) which was changed from 7.50% to 7.25% effective with the June 30, 2018 valuation, and then from 7.25% to 6.90% effective with the June 30, 2021 valuation. In addition, the assumed annual rate of inflation was changed from 3.00% to 2.50% effective with the June 30, 2021 valuation.

NOTE 14 – RETIREMENT PLANS (CONTINUED)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (CONTINUED)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	0.20%
Domestic large equities	46.30	9.40
Domestic small equities	1.20	13.40
International developed market equities	12.30	9.40
International emerging market equities	5.20	11.40
Alternatives	5.00	10.50
Total	100.00%	

* Rates shown are net of the 2.50% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 6.90%. This was a decrease from the 7.25% discount rate used in the prior year. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 14 – RETIREMENT PLANS (CONTINUED)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (CONTINUED)

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate: The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 6.90%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.90%) or 1-percentage-point higher (7.90%) than the current rate:

	1%		Current		1%
	Decrease (5.90%)	_	discount rate (6.90%)	_	Increase (7.90%)
District's proportionate share of the					
net pension liability	\$ 328,443,997	\$	217,704,503	\$	127,271,058

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publicly available at www.trsga.com/publications.

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)

Plan description: PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. PSERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/financials.

Benefits provided: A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$15.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS may make periodic cost-of-living adjustments to the monthly benefits. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

NOTE 14 – RETIREMENT PLANS (CONTINUED)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS) (CONTINUED)

Contributions: The general assembly makes an annual appropriation to cover the employer contribution to PSERS on behalf of local school employees (bus drivers, cafeteria workers, and maintenance staff). The annual employer contribution required by statute is actuarially determined and paid directly to PSERS by the State Treasurer in accordance with O.C.G.A. §47-4-29(a) and 60(b). Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Individuals who became members prior to July 1, 2012 contribute \$4 per month for nine months each fiscal year. Individuals who became members on or after July 1, 2012 contribute \$10 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

Pension Liabilities and Pension Expense: At June 30, 2023, the School District did not have a liability for a proportionate share of the net pension liability because of the related State of Georgia support. The amount of the state's proportionate share of the net pension liability associated with the School District is as follows:

State of Georgia's proportionate share of the Net Pension Liability associated with the School District

\$ 2,043,478

The net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2021. An expected total pension liability as of June 30, 2022 was determined using standard roll-forward techniques. The state's proportion of the net pension liability associated with the School District was based on actuarially determined contributions paid by the state during the fiscal year ended June 30, 2022.

For the year ended June 30, 2023, the School District recognized pension expense of \$513,525 and revenue of \$513,525 for support provided by the State of Georgia.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increase	N/A
Investment rate of return	7.00%, net of pension plan
	investment expense, including inflation
Postretirement benefit increase	1.50% semi-annually

NOTE 14 – RETIREMENT PLANS (CONTINUED)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS) (CONTINUED)

Mortality rates are as follows:

- The Pub-2010 General Employee Table, with no adjustments, projected generationally with the MP-2019 scale is used for both males and females while in active service.
- The Pub-2010 Family of Tables projected generationally with the MP-2019 Scale and with further adjustments are used for postretirement mortality assumptions as follows:

<u>Participant Type</u>	<u>Membership Table</u>	Set Forward (+)/	Adjustment to Rates
Service Retirees	General Healthy Below-Median	<u>Setback (-)</u> Male: +2; Female: +2	Male: 101%; Female: 103%
Disability Retirees Beneficiaries	Annuitant General Disabled General Below- Median Contingent Survivors	Male: -3; Female: 0 Male: +2; Female: +2	Male: 103%; Female: 106% Male: 104%; Female: 99%

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2019, with the exception of the assumed investment rate of return.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00%	0.20%
Domestic large stocks	46.30	9.40
Domestic small stocks	1.20	13.40
International developed market stocks	12.30	9.40
International emerging market stocks	5.20	11.40
Alternatives	5.00	10.50
Total	100.00%	
* Net of inflation		

NOTE 14 – RETIREMENT PLANS (CONTINUED)

GENERAL INFORMATION ABOUT THE PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS) (CONTINUED)

Discount rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 15 – POST-EMPLOYMENT BENEFITS

GEORGIA SCHOOL PERSONNEL EMPLOYEES POST-EMPLOYMENT HEALTH BENEFIT FUND

Plan Description: The School District participates in the State of Georgia School Employees Post-Employment Benefit Fund (School OPEB Fund), which is an Other Post-Employment Benefit (OPEB) plan administered by the State of Georgia Department of Community Health (DCH). Certified teachers and non-certified employees of the School District as defined in §20-2-875 of the Official Code of Georgia Annotated (O.C.G.A.) are provided OPEB through the School OPEB Fund - a cost-sharing multiple-employer defined benefit postemployment healthcare plan, reported as an employee trust fund of the State of Georgia and administered by a Board of Community Health (DCH Board). Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the DCH Board. The School OPEB Fund is included in the State of Georgia Annual Comprehensive Financial Report which is publicly available and can be obtained at https://sao.georgia.gov/statewide-reporting/acfr.

Benefits: The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies, and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

Contributions: As established by the Board of Community Health, the School OPEB Fund is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur. Contributions required and made to the School OPEB Fund from the School District were \$3,270,147 for the year ended June 30, 2023. Active employees are not required to contribute to the School OPEB Fund.

NOTE 15 – POST-EMPLOYMENT BENEFITS (CONTINUED)

OPEB LIABILITIES, OPEB EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB

At June 30, 2023, the School District reported a liability of \$82,404,377 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2021. An expected total OPEB liability as of June 30, 2023 was determined using standard roll-forward techniques. The School District's proportion of the net OPEB liability was actuarially determined based on employer contributions to the School OPEB Fund during the fiscal year ended June 30, 2022. At June 30, 2022, the School District's proportion was 0.832100%, which was an increase of 0.013779% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the School District recognized OPEB expense of (\$3,204,879). At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Net difference between projected and actual earnings on				
OPEB plan investments	\$	502,643	\$	-
Differences between expected and actual experience		3,289,220		32,387,416
Changes in proportion and differences between District				
contributions and proportionate share of contributions		5,309,614		501,065
Changes in plan assumptions		12,550,355		16,666,400
District contributions subsequent to the measurement date		3,270,147		-
Total	\$	24,921,979	\$	49,554,881

School District contributions subsequent to the measurement date of \$3,270,147 are reported as deferred outflows of resources and will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30:	
2024	\$ (8,332,559)
2025	(6,258,139)
2026	(4,408,327)
2027	(5,733,669)
2028	(2,868,600)
2029	(301,755)
Total	\$(27,903,049)

NOTE 15 – POST-EMPLOYMENT BENEFITS (CONTINUED)

OPEB LIABILITIES, OPEB EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB (CONTINUED)

Actuarial assumptions: The total OPEB liability as of June 30, 2022 was determined by an actuarial valuation as of June 30, 2021 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022:

Inflation	2.50%
Salary Increases	3.00-8.75%, including inflation
Long-term expected rate of return	7.00%, compounded annually, net of investment expense, and including inflation
Municipal bond index rate	3.57%
Healthcare cost trend rate:	
Pre-Medicare eligible	6.50%
Medicare eligible	5.00%
Ultimate trend rate	
Pre-Medicare eligible	4.50%
Medicare eligible	4.50%
Year of ultimate trend rate	
Pre-Medicare eligible	2029
Medicare eligible	2023

Mortality rates were based as follows:

- For TRS members: The Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree Mortality Table projected generationally with MP-2019 projection scale (set forward one year and adjusted 106%) is used for death prior to retirement and for service retirements and beneficiaries. The Pub-2010 Teachers Mortality Table for Disabled Retirees projected generationally with MP-2019 Projection scale (set forward one year and adjusted 106%) is used for disability retirements. For both, rates of improvement were reduced by 20% for all years prior to the ultimate rate.
- For PSERS members: Pre-retirement mortality rates were based on the Pub-2010 General Employee Mortality Table, with no adjustment, with the MP-2019 Projections scale applied generationally. Postretirement mortality rates for service retirements were based on the Pub-2010 General Healthy Annuitant Mortality Table (ages set forward one year and adjusted 105% for males and 108% for females) with the MP-2019 Projection scale applied generationally. Postretirement mortality rates for disability retirements were based on the Pub-2010 General Disabled Mortality Table (ages set back three years for males and adjusted 103% for males and 106% for females) with the MP-2019 Projections scaled applied generationally. Postretirement mortality rates for beneficiaries were based on the Pub-2010 General Contingent Survivor Mortality Table (ages set forward two years and adjust 106% for males and 158% for females) with the MP-2019 Project scale applied generationally.

NOTE 15 – POST-EMPLOYMENT BENEFITS (CONTINUED)

OPEB LIABILITIES, OPEB EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB (CONTINUED)

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the pension systems, which covered the period ending July 1, 2013 through June 30, 2018, with the exception of the assumed annual rate of inflation which was changed from 2.75% to 2.50%, effective with the June 30, 2018 valuation.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2021 valuation were based on a review of recent plan experience done concurrently with the June 30, 2021 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the Board and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-Term Expected Real Rate of Return*
Fixed income Equities	30.00%	2.00 9.40
Total	100.00%	

*Net of Inflation

Discount rate: The discount rate was 3.57%, an increase from the prior year's rate of 2.20%. In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.57% was used as the discount rate. This is comprised mainly of the yield or index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.57% per the Muncicpal Bond Index Rate). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2118.

NOTE 16 – TAX ABATEMENTS

Barrow County enters into property tax abatement agreements with local businesses for the purpose of attracting or retaining businesses within their jurisdictions. Through the Industrial Building Authority, property taxes of \$87,237 were abated for a new business creating 315,000 square feet of manufacturing and distribution capabilities in the County. The abatement has two more tax years remaining.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2023

Teachers Retirement System of Georgia:

Changes of assumptions: On November 18, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement, disability, withdrawal and salary increases. The expectation of retired life mortality was changed to RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one year for males).

On May 15, 2019, the Board adopted recommended changes from the smoothed valuation interest rate methodology that has been in effect since June 30, 2009, to a constant interest rate method. In conjunction with the methodology, the long-term assumed rate of return in assets (discount rate) has been changed from 7.50% to 7.25%, and the assumed annual rate of inflation has been reduced from 2.75% to 2.50%.

In 2019 and later, the expectation of retired life mortality was changed to the Pub-2010 Teachers Headcount Weighted Below Median Healthy Retiree mortality table from the RP-2000 Mortality Tables. In 2019, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

On May 11, 2022, the Board adopted recommended changes to the long-term assumed rate of return and payroll growth assumption utilized by the System. The long-term assumed rate of return was changed from 7.25% to 6.90%, and the payroll growth assumption was changed from 3.00% to 2.50%.

Public Schools Employees Retirement System of Georgia:

Changes of assumptions: On December 17, 2015, the Board adopted recommended changes to the economic and demographic assumptions utilized by the System. Primary among the changes were the updates to rates of mortality, retirement and withdrawal. The expectation of retired life mortality was changed to the RP-2000 Blue Collar Mortality Table projected to 2025 with projection scale BB (set forward three years for males and two years for females).

A new funding policy was initially adopted by the Board on March 15, 2018, and most recently amended on December 17, 2020. Because of this new funding policy, the assumed investment rate of return was reduced from 7.50% to 7.40% for the June 30, 2017 actuarial valuation and further reduced from 7.40% to 7.30% for the June 30, 2018 actuarial valuation.

On December 17, 2020, the Board adopted recommended changes to the economic and demographic assumption utilized by the System based on the experience study prepared for the five-year period ending June 30, 2019. Primary among the changes were the updates to rates or mortality, retirement, disability, and withdrawal. This also included a change to the long-term assumed investment rate of return to 7.00%. These assumption changes are reflected in the calculation of the June 30, 2021 Total Pension Liability.

School OPEB Fund:

Changes of benefit terms : There have been no changes in benefit terms.

Changes in assumptions: June 30, 2020 valuation: Decremental assumptions were changed to reflect the Employees' Retirement System's experience study. Approximately 0.10% of employees are members of the Employees' Retirement System.

June 30, 2019 valuation: Decremental assumptions were changed to reflect the Teachers Retirement Systems experience study.

June 30, 2018 valuation: The inflation assumption was lowered from 2.75% to 2.50%.

June 30, 2017 valuation: The participation assumption, tobacco use assumption and morbidity factors were revised.

June 30, 2015 valuation: Decremental and underlying inflation assumptions were changed to reflect to Retirement Systems' experience studies.

June 30, 2012 valuation: A data audit was performed and data collection procedures and assumptions were changed.

The discount rate was updated from 3.07% as of June 30, 2016 to 3.58% as of June 30, 2017, to 3.87% as of June 30, 2018, back to 3.58% of June 30, 2019, to 2.22% as of June 30, 2020 and to 3.57% as of June 30, 2023.

(2) The School District's current estimate of total cost for the project(s). Includes all cost from project inception to completion.

⁽³⁾ The voters of Barrow County approved the imposition of a 1% sales tax to fund the above projects and retire associated debt. Amounts expended for these projects may include sales tax proceeds, state, local property taxes and/or other funds over the life of the projects.

* Prior year totals were corrected to remove non-splost related expenditures.

IV. SINGLE AUDIT SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Superintendent and Members of the Barrow County Board of Education Winder, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Barrow County Board of Education, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Barrow County Board of Education's basic financial statements, and have issued our report thereon dated December 16, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Barrow County Board of Education's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Barrow County Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Barrow County Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Barrow County Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Atlanta, Georgia December 16, 2023

Mauldin & Jenkins, LLC

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Superintendent and Members of the Barrow County Board of Education Winder, Georgia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Barrow County Board of Education's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Barrow County Board of Education's major federal programs for the year ended June 30, 2023. The Barrow County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Barrow County Board of Education's complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Barrow County Board of Education and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Barrow County Board of Education's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective intern control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Barrow County Board of Education's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Barrow County Board of Education's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting form error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Barrow County Board of Education's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Barrow County Board of Education's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Barrow County Board of Education's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Barrow County Board of Education's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiency, or a combination of deficiency, or a combination of deficiency and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiency in *internal control over compliance* is a deficiency, or a combination of deficiency in *internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over comAudit pliance that we consider to be material weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over comAudit pliance that we consider to be material control over comPliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2023

STATUS OF PRIOR YEAR FINDINGS

2022-001 – Improve Controls over Expenditures

Description: The policies and procedures of the School District were insufficient to provide adequate internal controls over expenditures as it relates to the Elementary and Secondary School Emergency Relief Fund program.

Condition: Auditors performed a review of expenditure activity associated with the ESSER program to determine if appropriate internal controls were implemented and applicable compliance requirements were met. This testing revealed that "retention" bonuses were paid to individuals who were not employees of the School District. Therefore, based upon this information, auditors determined that expenditures totaling \$358,390 were not reasonable and necessary for the performance of the ESSER program and deemed these expenditure to be unallowable.

Status: Resolved in current year.
