

## Demographic Cross-Comparisons (ES)

The rezone committee considered several criteria when selecting the elementary school attendance zones. The below charts provide more insight and data for these three criteria:

- Balance of enrollment across schools
- Consideration of expected future growth
- Title I/Social Economic Status balance

### Enrollment

Using current enrollment data from this school year (2022-2023), the below chart shows what the enrollment would look like now if the selected zone were currently in place.

The SY24 (school year 2023-2024) shows the projected enrollment for next year. It takes into consideration student progression to the next grade level with a 3% growth rate.

**Key takeaway:** This chart shows that this rezone option has a balanced distribution of students among the AHS elementary schools.

Total Enrollment	Auburn	Bethlehem	Kennedy	New Elem	Yargo
ES Selection – Current Year	650	676	741	641	722
ES Selection – SY24	659	684	752	650	732

### Free & Reduced Lunch Percentage

Using current free and reduced lunch data from this school year (2022-2023), the below chart shows what the percentages by school would look like now if the selected zone were currently in place.

Total Free & Reduced Lunch %	Auburn	Bethlehem	Kennedy	New Elem	Yargo
ES Selection – Current Year	60.0%	50.1%	63.7%	49.4%	56.5%
