## KES HOLIDAY BREAK REVIEW

Dear Dragon Parents and Students,

This year we are lucky to have an extra-long break between December 18, 2020 and January 11, 2021. We have 24 days without school! While we definitely want you to spend time with your family, safely and hopefully without COVID, we also want you to have the **OPTION** and **OPPORTUNITY** to utilize any other free time that you may have to review what you have worked so hard on during the first semester.

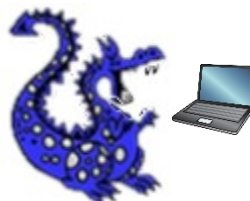

So, **we will be sending home a Chromebook to students who need one to use over the break.** This will be an opportunity for your child to access their Google Classroom for any review assignments, or to complete/re-do any assignments they are missing. This is also an excellent opportunity for them to access Study Island or Exact Path to complete review lessons, to read and listen to books on MyOn, or to get on Prodigy math and practice their math skills.

Again, we are not requiring that your child complete any additional work or assignments. We would like **to strongly encourage** your child to access one of the resources listed above to refresh their memory and activate their brains a few times over this extended break.

Per the BCSS website, **At this time, we are not planning on a district-wide closure.** *We currently have sufficient staffing levels to continue in-person learning, but as we all know, that could change at any time. Please ensure your family has a plan if your child needs to move to distance learning.* However, we at KES know that everyone is going to continue to wear their masks, socially distance themselves from others, and continue to wash their hands each and every day.

We hope you take this opportunity to extend your learning and we hope to see you all real soon!

Mr. Butcher and Mr. Neupert
